

Professional Summary

- Overall experience of 3.2+ years in analysis, design, development and implementation of Software Development Life Cycle (SDLC), object-oriented software systems, development of Web based applications.
- Good experience in developing Application, Using Java, Spring and Hibernate.
- Having hands on experience in implementing MVC architecture.
- Experience with Software Development Processes & Models: Agile, Waterfall Models.
- Having knowledge in Object Oriented Programming.
- Working experience in Apache Tomcat Web Server.
- Having good work experience with Oracle databases
- Working exposure on IDEs like Eclipse and STS.
- Having good knowledge in Hibernate, JPA, and ORM framework.
- Expertise in developing the applications by using Maven through Dependencies Tags by updating pom.xml

Professional Experience

- Worked as a Software Engineer with Evry India from July - 2019 to Aug- 2020.
- Worked as a Software Engineer with Perfect12 Technologies from July - 2017 To June 2019.

Technical Skills

- | | | |
|----------------------|---|-------------------------------------------------------------------------|
| ➤ Java Technologies | : | Java, JDBC. |
| ➤ Databases | : | Oracle. |
| ➤ Web Servers | : | Tomcat. |
| ➤ Java IDE | : | Eclipse, STS. |
| ➤ Operating System | : | Windows Family. |
| ➤ Frameworks | : | Spring, Hibernate, JPA, Web Services, Restful Services, Micro Services. |
| ➤ XML Technologies | : | XML, DTD, XSD, JAX-P and JAX-B |
| ➤ Streaming Platform | : | Apache Kafka. |
| ➤ CI Tool | : | Jenkins. |
| ➤ Tools | : | Maven, Git, JUnit, Mockito. |

Education Qualification

- Master of Computer Applications (MCA) from UIT-RGTU Bhopal, MP.

Project Details

Project#3:

| | |
|--------------------|---------------------------------------------------------------------|
| Name | : CORE Renewal. |
| Duration | : July 2019 to Aug - 2020. |
| Environment | : Java 8, Spring Boot, MVC, Hibernate, JPA, Rest and Soap Services. |
| Industry | : Banking System. |
| Role | : Team Member. |

Description:

The objective of project is renewal of old banking system. To provide good and fast services to existing client.

Responsibilities:

- I have worked on System is called ACC, LED, LEG.
- I have worked on defect fixing in LED and LEG.
- I was involved planning of the project.

Project#2:

| | |
|--------------------|-------------------------------------------------|
| Name | : UHIP (Unified Health Infrastructure Project). |
| Duration | : June 2018 to June 2019. |
| Environment | : Java, Spring, Hibernate and Oracle. |
| Industry | : Health and Human Services Area. |
| Role | : Team Member. |

Description:

The objective of the project is to implement a fully integrated Health Insurance Exchange and Integrated Eligibility System for Washington state citizens.

Responsibilities:

- Involved in gathering the requirements, analysis, design & development of the project
- Design and development application with Spring framework using MVC Design pattern.
- Designed the Front-end screen using JSP, Servlets, HTML and JavaScript.
- Extensively developed Spring Data calls for accessing data from database.
- Developed Database connection methods using Spring Data to connect SQL Database.
- Involved in the Unit test and Peer review.

Project#1:

| | | |
|--------------------|---|-------------------------------------------------------------|
| Name | : | IPM (Internal Project Management Tool). |
| Client | : | Internal Tool. |
| Duration | : | July 2017 to May 2018. |
| Environment | : | Java, JSP, HTML, JavaScript, Spring, Hibernate, and Oracle. |
| Role | : | Team Member. |

Description

PRA (Project Resource Allocation): This tool is developed for allocating the resource to the projects based on resource availability.

DAT (Daily Activity Tracker): This tool is developed to track the user daily activities in respective project.

PBS (Project Budgeting System): This tool is developed for calculating Project Budget and Profit with all deductions on monthly basis.

Responsibilities:

- Involved in gathering the requirements, analysis, design & development of the Project.
- Involved in development of Web Forms, classes using JAVA, and Database Connectivity.
- Developed UI using JSP, JavaScript, and HTML.
- Developed classes using MVC patterns.
- Developed Persistence layer using Hibernate framework.
- Involved in the Unit test and Peer review.
- Prepared User guide for the tool.
